# Nexa Wavepos 55

Touch POS Terminal

Overview

The Wavepos 55 is the flexible and reliable solution for POS applications both large and small.

It has a large selection of ports, allowing easy connection of the large number of peripherals often found at the point of sale, and it can be mounted either with it's included desktop stand or mounted to a wall or pole.

The Wavepos 55 includes 12 months on site warranty and an additional 12 months return to base warranty. and it also has the benefit of having a removable hard disk drive, so in the unlikely event of a failure it can be replaced quickly and easily, or swapped out with a disk from another terminal if available.

Can be pole mounted

Many ports included

2 year warranty
